Industrial emissions in Alberta and neighbouring provinces, 2024

Facilities, coloured by sector

- Manufacturing
- Mining, quarrying, oil and gas
- Other
- Pipeline transportation
- Utilities
- Waste management

Emissions (kt CO2e)

0 100 200 km

Source: Environment and Climate Change Canada, Greenhouse Gas Reporting Program, 2024 data. Circle area is proportional to emissions. Not shown: 16 natural gas pipeline and distribution systems with no single location (about 9.9 Mt, 3.4% of 2024 emissions); they are included in all totals elsewhere.
